
The book examines the theory and practice of law and development. It reviews the evolution of law and development studies and presents a general theory of law and development. The general theory sets the conceptual parameters of “law” and “development” and explains the mechanisms by which law impacts development. In the second part, the book applies the general theory to analyze the development cases of South Korea and South Africa from legal and institutional perspectives. The book also adopts, for the first time, the law and development approaches to analyze the economic issues of the United States. It discusses why it is critical to develop the Analytical Law and Development Model or “ADM.”

_Law and Development Review_ (LDR) is open for article submission. Journal link: www.degruyer.com/ldr

LDR is a leading peer-reviewed academic journal dedicated to the area of law and development, continuously operating since 2008. The journal seeks top-quality articles on law and development issues broadly, from the developing world as well as from the developed world. Many of the top scholars and practitioners in the field have edited LDR issues and published articles in LDR. LDR is listed in numerous indexes, including SCOPUS and indexes by the Web of Science.
